## About Me

Since I was little I have been passionate about the world of **technology** and after years I focused on the **programming section,** both **front-end** and **back-end.** I have developed my soft skills such as **teamwork** or **problem solving** and I have also developed projects with different frameworks such as **React or Angular.**

## Projects

### Dubo Martial Arts

A website created with the purpose of **authenticating users** through the use of **OAuth2**, for this I proposed a Martial Arts School with which it developed an authentication system using **Passport.js**, **Express** and **Node.js.**

### PokeShop

A Pokemon store **consuming** the **PokéAPI API**, I developed it to be able to learn **TailWind CSS** and apply knowledge in **responsive design** and **lazy loading.**

### Web Portfolio

My resume, but on the web, developed with **Node.js and Express** and using frameworks like **TailWind CSS** to show my knowledge in a more visual way. With this project I learned UX & UI laws.

## Education

**Web Applications Development • Campus FP**
Sep, 2022 — Jun, 2024
